

BULK MANURE & COMPOST DIRECTORY

A Starter List for Finding Un-bagged Sources in S-C Alaska:

- Anchor Point
- Anchorage
- Chugiak
- Eagle River
- Palmer & Butte
- Wasilla

Be sure to phone ahead and arrange pick-up.

Benefits: manure or compost will

- Feed your soil micro-workers
- Fertilize your plants
- Increase plant vigor
- Improve soil structure & drainage
- Neutralize toxins
- Reduce the need to irrigate
- Prevent disease
- Prevent pests
- Prevent nutrient deficiencies

Compost your manure first to reduce weed seed & nitrogen-robbing

A note about raw manures: If the batch comes from a horse, reindeer, cow, etc. who has been wormed in the last couple months, the wormer medicine will kill beneficial soil microbes. Ask when you call

about manure. Either let the manure sit until it starts to show signs of decomposition before spreading, or find a different source of manure.

*Please note...
that I have not checked with all these sources for 2009.
Inquire directly for availability & current prices.
Let me know about other sources to post. Thanks, Ellen*

PALMER AREA

Fishhook Dairy

Composted Dairy Cow Manure
\$200 for 12 cubic yard truck load

Alys Culhane

Horse Manure
Free but donations greatly appreciated to keep feeding the manure-producers.
We supply manure in convenient buckets, and ask that the buckets be returned. Call a few days ahead, as demand is high. No wormer medication is ever used on horses to endanger your soil food web.

EAGLE RIVER / BIRCHWOOD AREA**Linda Boggs**

Composted horse manure

Free to good home

Hiland Road in Eagle River

I have a front end loader so: 1) the piles are monitored and turned to kill weed seeds and pathogens (I aim for organic standards), and 2) I can easily load up your truck. Often the older stuff is loaded with earthworms, who quickly inhabit the piles as they cool down.

Leading Lady Llamas

Llama and goat manure

Plentiful. Call for arrangements & directions.

Some poop is mixed with bedding materials. You are quite welcome to come over and load up. I am not charging and do have some old feed bags if anyone needs them. I usually just load it into the back of my pickup and shovel from there.
