based on her new book, Ask Mother Nature, a Conscious Gardener's Guide*

Combine your green thumb and your spirituality

Learn Practical Organic Growing Methods

Discover the science of successful organic vitality and yield

- Choose organic fertilizers for healthy, nutritious plants
- Manage pests non-toxically
- Perfect your compost pile and production of compost tea

Communicate and Co-Create with Nature

Meet the wise, helpful, and humorous Devas and Nature Spirits

- Apply the Findhorn and Perelandra Garden techniques
- Receive specific answers to your garden questions
- Gain confidence with group practice and confirmation

Imagine...

enlisting the expertise of nature spirits to grow your vegetables

Imagine...

having those pesky slugs advise you how to control their numbers.

Imagine...

having the wise spirit of soil tell you which fertilizer to choose.

Imagine...

being counseled by the tree you are about to chop down about avoiding trauma.

It's all possible! Come learn how to converse with devas and nature spirits in your back yard, and what kinds of communication you can expect.

INSTRUCTOR: Ellen Vande Visse, MS, brings to the class her 20 years of spiritual work with nature and applying these Findhorn/Perelandra-style principles to land management, wild things, her organic gardens, and Earth healing.

READ: If you can do some preparatory reading, one of these is highly recommended: *The Findhorn Garden*, *The Perelandra Garden Workbook*, *Kinship with All Life*, *To Hear the Angels Sing*, or *Talking with Nature*.

TIME: Could be a 2 hour, full day, or two day workshop.

Interested in hosting this course? It's great fun, and your land benefits from the group work. Please contact me for arrangements.
